Training Services

- 
- The background of the slide is a blue-tinted photograph of a person, likely a doctor, seen from behind. They are wearing a white lab coat and are pointing their right hand towards a large, out-of-focus screen that displays a medical image, possibly a CT scan. The overall atmosphere is professional and clinical.
- 1- Clinical Trainings**
 - 2- Online Learning**
 - 3- Professional Development Programs in Healthcare**
 - 4- Cadaveric Courses**
 - 5- Tailor-made programs for doctors**
 - 6- Soft Skills Development**

1- Clinical Trainings

- **Clinical Observership trainings**
- **Clinical Fellowship training**
- **Live case observation events**
- **Medical electives, internships**

2- Online Learning

Online Medical Trainings

offers a flexible and accessible way for healthcare professionals to continue their education and enhance their skills.

3- Professional Development Programs in Healthcare

Hospital Management Program

is a specialized course of study designed to equip individuals with the necessary skills and knowledge to effectively manage healthcare organizations. These programs cover a wide range of topics, including:

Core Areas of Hospital Management

- Healthcare Administration
- Financial Management
- Human Resources Management
- Operations Management
- Marketing and Public Relations
- Information Technology

4- Cadaveric Courses

Key Benefits of Our Cadaveric Courses

- Hands-on Experience
- Advanced Surgical Techniques
- Expert Guidance
- Personalized Training
- Cutting-Edge Facilities

Our courses cover a wide range of surgical specialties, including

- General Surgery
- Orthopedic Surgery
- Plastic Surgery
- Neurosurgery
- Cardiovascular Surgery
- Urology

5- Tailor-made Programs

At **Liv Academy**, we offer a wide range of customized training programs designed to meet the unique needs of doctors and nurses. Our courses are tailored to enhance your clinical skills leadership abilities, and professional development.

Tailor-made Programs For Doctors

- Hospital Management
- Obesity Surgery and Non-surgical Applications
- Heart Surgeries with The Help of Minimally Invasive and Robotic Surgery
- Innovations in Videothoracoscopic, Robotic Lung Surgery
- Invitro Fertilization(IVF) Treatment and Endoscopic Surgeries for Gynecology
- Current Stem Cell Treatments
- Neurologically Risky Baby Follow-up Taining
- Approach to Functional Neurosurgery
- Surgical Treatment of Endocrine System Diseases and Standardization of Preoperative Multidisciplinary Management
- Diagnosis and Treatment of Venous Insufficiency of Varicose Veins
- Peripheral Vascular Diseases
- Gynecological Cancers, Cervical Cancer Ccreening Methods
- Robotic Perineal Prostate Biopsy,
- Prostate Diseases Diagnosis and Treatment

Tailor Made Courses For Nurses

- Basic Nursing Approaches to Patient Care Integrated with Clinical Practice
- Diabetes Nursing Program
- Infection Control Training Program
- Intensive Care Nursing Program
- Leadership In Nursing Module 1
- Leadership In Nursing Module 2
- Elastomeric Infusion Pump Training Program
- Medical Laboratory Nursing Program
- Operating Room Nursing Program
- Diagnostic Tests in Childhood Respiratory Diseases Training Program
- Port Catheter Placement and Nursing Care Training Program

6- Soft Skills Development

Soft Surgical Skills

are essential for effective and safe surgical practice. These skills, often overlooked, can significantly impact patient outcomes and surgical efficiency.

Simulation-Based Training

Simulation-based training is an effective way to develop soft surgical skills.

Key Benefits of Simulation-Based Training

- Reduced Risk to Patients
- Improved Patient Outcomes
- Enhanced Teamwork
- Cost-Effective

Task trainers are specialized devices designed to simulate specific medical procedures, allowing healthcare professionals to practice and refine their skills in a controlled environment.
